OBLIGATIONS OF APEX

APEX shall forward incoming calls to geographic numbers and pay the rates specified in the order confirmation (Premium rate numbers only). The geographic numbers will be provided by the client.

APEX will provide statistical data about call volume and minutes, generated by APEX's or the carriers systems. APEX will provide the client with username and password for logon to these statistics. Statistics are informational only. The carrier's bill is the basis for the bill or Credit note issued by APEX.

OBLIGATIONS OF THE CLIENT

The Client shall provide services to the callers using the numbers allocated in the order confirmations. The client will pay APEX's bills within a time of 14 days.

The Client shall be responsible for the quality and delivery of the content of the services and that these services comply with the National Telecommunications Legislation, a Code of Conduct (where applicable) and this agreement.

The Client shall obtain all necessary approvals, permissions or authorisations for use of the numbers. The Client shall neither acquire any right, title or interest in the numbers.

The client shall inform APEX about the services rendered. In case of dialers the client shall enable APEX to test the function of the dialer.

The Client shall ensure that the services neither infringe any intellectual property right nor are defamatory.

The Client shall reimburse APEX in full for any fines or charges incurred from any third party in connection with the client's failure to comply with the relevant rules and regulations issued by the relevant third party.

RATES AND PAYMENTS

APEX shall pay the client in respect of calls to allocated numbers, according to the rates defined in the order confirmations. Payment will be made at the date set forth in the order confirmation.

All rates mentioned are exclusive of value added tax, with the exception of the information about caller rates, which normally are inclusive VAT.

In case of premium rate numbers ordered APEX will pay out the rate agreed upon. Setup costs, monthly fees, routing costs, chargebacks and other costs (if applicable) will be deducted from the monthly payment. If the payout is lower than the costs billed the client agrees to pay the difference within 10 days after issue of the invoice.

APEX reserves the right to cut or delay the payout if there are chargebacks pending or foreseeable and to change the pricing and rates mentioned in this document or in annexes or confirmations upon seven (7) days after written notice. If retrospective price changes are implanted by the network provider that result in APEX having effectively overpaid the client, then APEX reserves the right to deduct amounts from subsequent payouts to address the balance of payments overpaid during the period affected by the retrospective changes.

APEX will not pay the client for traffic which is not paid by the carrier for any reason. For instances where this applies, appropriate written documents must be produced by APEX to prove this.

ARBITRAGE, ILLEGAL USE OF NUMBERS

In case of justified doubt of systematic commercial use of volatile margin building in international linkup markets (arbitrage) by the contracting party or a third party, the client shall keep APEX clear of any loss. The client shall assume the sole responsibility against APEX in regard of the legitimacy of such use. All inquiries, queries or complaints in connection with arbitrage will be forwarded from APEX to the client.

The client and not APEX bears the responsibility of the correctness of the contents behind or the use of the Apex dynasty limited, 20/F Central tower, 28 Queen's road central, Central Hong Kong, office@apexdynasty.com +85221270665

numbers. In case of legal action with regard of a number provided by APEX to the client, the client shall be part of such legal action and shall bear the risk as well as costs. The client is responsible to provide the necessary documentation, like legally binding declarations about end-clients, usage and the client's responsibility towards authorities and courts, if possible after previous approval from APEX.

If APEX suspects a violation of the contract, especially of illegal use or arbitrage, it has the right to suspend all payments to the client, even if APEX has been paid by the carrier, until a legally binding or official decision is taken, which confirms the legality of the client's actions, or use of the numbers.
